The diagram shows a hand-drawn outline of a person's head and neck. A yellow label with a black border is attached to the neck area, containing the word 'Chelsea'. The background is a light-colored wall.

Who? **Ruth Minoletti**

After an intense analysis of the skin, Minoletti uses three different types of massage – lymphatic drainage, deep tissue and mini movements – to revive it. She uses a heat wand which makes blackheads pop out after a few weeks.

USP: unique advice – for example, apply moisturiser to the sides and back of your neck.

HQ: her own charming room in an apartment shared with other therapists. 106 Draycott Avenue, SW3 (020 7589 9585)
